## Cassette floor

Date : December 2011  
Period of validity: 2 years

The **cassette floor** system is manufactured in Bree, Belgium by the company EFS nv Veldeman Structure Solutions.

There are two systems :

- a **birch plywood** plate (2.5 x 1.0 m);
- **white Norwegian pinewooden** planks  
assembled on 3 aluminium profiles.

The floor is designed to resist the following live loads :

- **500 kg/m<sup>2</sup>** (uniform loading, in conformity with **European Standard EN13782**);
- **350 kg** (local loading for the plate system)
- **210 kg** (local loading for the plank system)

For EFS nv
